# Extremely powerful play and exceptional speed! In the year 2020, baseball finally evolved.

There is no longer conventional professional baseball in 2020. The Super Baseball devised by the SUPER BASEBALL ASSOCIATION has been very popular and is the best sport.

However, the truth is that the association has used a colossal sum of money to promote Super Baseball as show business. They have manipulated each player's ability using the control computer to secretly decide victory or defeat in every game. The players who know this have moved the connecting points of the computer to play their own game of baseball. Finally, a fair game is going to be played at "CYBER EGG".
